

INCF is a global research network enabling data reuse and reproducibility in neuroscience through the promotion and development of open standards and best practices

Join the many companies, organizations, funders, and publishers who support our effort to facilitate research and progress global neuroscience at a faster pace!

INCF in numbers

The INCF Network - incf.org

- est. 300 researchers involved
- 17 academic and commercial members
- 6 governing bodies
- 29 active working groups

INCF Assembly - neuroinformatics.incfsociety.org

The annual INCF Assembly provides a forum for infrastructure providers and developers of tools, standards, and best practices to help define the capabilities of the global network, and receive training on how to participate in the Open, FAIR and Citable global network.

- organized annually since 2008
- 250 participants from 25 countries
- website: 8,500 visitors/year

INCF TrainingSpace - training.incfsociety.org

TrainingSpace is an online repository for educational content from courses, conference lectures, and laboratory exercises from some of the world's leading neuroscience institutes and societies: INCF, HBP, SfN, FENS, IBRO, OHBM, IEEE Brain, BD2K, and iNeuro Initiative.

- 1,000 user visits/month
- 5,000 page views/month

INCF KnowledgeSpace - knowledge-space.org

KnowledgeSpace is a community-based, data-driven encyclopedia for neuroscience that links brain research concepts to data, models, and the literature that support them. KS is developed jointly by INCF, The Human Brain Project, and The Neuroscience Information Framework.

- 1882 users
- 880 page views/month

INCF Neurostars - neurostars.org

Neurostars is a question and answer site that serves the INCF network as a forum for knowledge exchange between national nodes; as a point of interaction between neuroscientists, software developers, and infrastructure providers; and as an integral resource in the network's training and mentoring initiatives.

- 20,000 user visits/month
- 62,500 page views/month

INCF newsletter & social media accounts

- Newsletter: 981 subscribers, 35% open rate
- LinkedIn: 1,020 followers, 120 unique visits/month
- Twitter: 4,866 followers, 125,000 impressions/month
- Facebook: 40,000 page views/month

Ways to support the INCF network

Join the INCF Industry Advisory Council, IAC

With the purpose of aligning research hardware and software with academic workflows, INCF has formed an Industry Advisory Council, IAC for companies developing products and services in areas related to neuroscience, neurotech, data science, and e-infrastructure.

The IAC provides:

- a forum to discuss implementation of standards and best practices, identifying use cases and practical challenges
- a channel for finding collaborators in related industry
- facilitation and possible matched funding of research-industry collaborations
- access to discussions in INCF's internal committees for science, training, infrastructure, and standards & best practices
- marketing opportunities to the INCF community

Gold member

Support our individual membership program

The individual INCF membership comes with benefits such as discounts and priority access to INCF activities, but also discounted products and services provided by our partners. If your company has a product or service that is of use to our community members, we would be happy for you to support them with a discount! Your company would be recognized as a supporting partner on our website.

Participate as a sponsor or exhibitor at the INCF Assembly

The INCF Assembly is hosted annually in different locations around the world. We have a number of sponsorship options that vary depending on the location and program. Please consult the current sponsorship specifications for pricing.

Advertise on select INCF websites

Products and services that are aligned with INCF community needs will soon be able to advertise on select pages on training.incf.org, knowledge-space.org, neurostars.org, or neuroinformatics.incf.org.

Donate

INCF is a registered non-profit in the US. Please contact us for more information.

Questions or ideas?

Contact us if you have questions about our membership options or if you have other ideas about how your company can support INCF's activities.
